# Message from the CEO

Since its inception in 2006, Insta Print has taken pride in bringing about constant innovation to the printing and branding industry. First by introducing digital printing as a concept to Pakistan, and now by providing under one roof an all encompassing design, product and service execution model.

Insta Print is a subsidiary of the Weaver bird group of companies; a group that has always sought to put the customer first by valuing quality over scale, whilst also building a belief system whereby our clients have faith in our word.

Whilst we engage with some of the largest multinationals in the country and abroad, we take even more pride in supporting small businesses; we truly believe the innovation they bring will help revolutionise the Pakistani economy in the days to come.

# Corporate Gifting

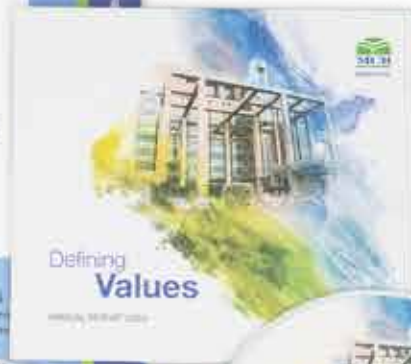

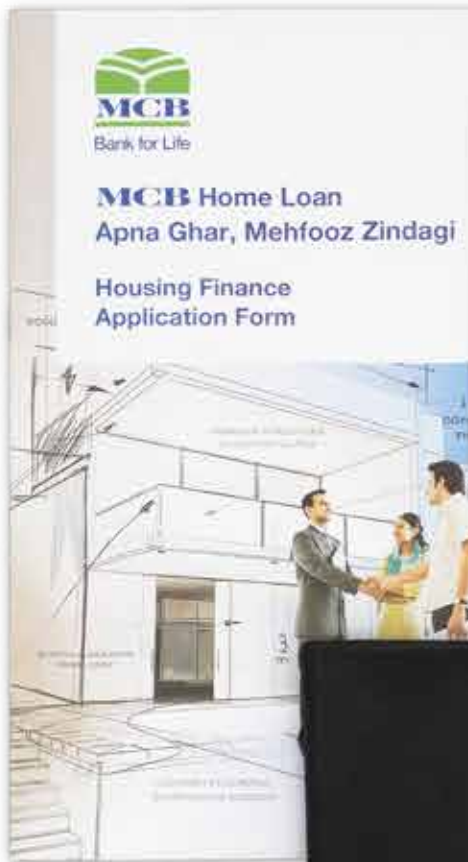

Corporate Gifting requires a personal touch. Our team must understand both the brand (our client) and their client (the receiver of the gift). Years of experience in the space allows our team to create a product tailored to your needs.

# Corporate Stationery

Stationery speaks the brand language at scale. The design elements, the colours, the choice of products; we carefully curate these with our clients' guidance.

# Packaging

Our diverse experience allows us to help our clients in building the most aesthetic, cost effective and long lasting packaging for their products.

# Eco Friendly Packaging

We are currently serving climate conscious customers, and continue to encourage other brands to join in.

# Leather Goods

We do not only print on products, we make them from scratch according to the client's needs.

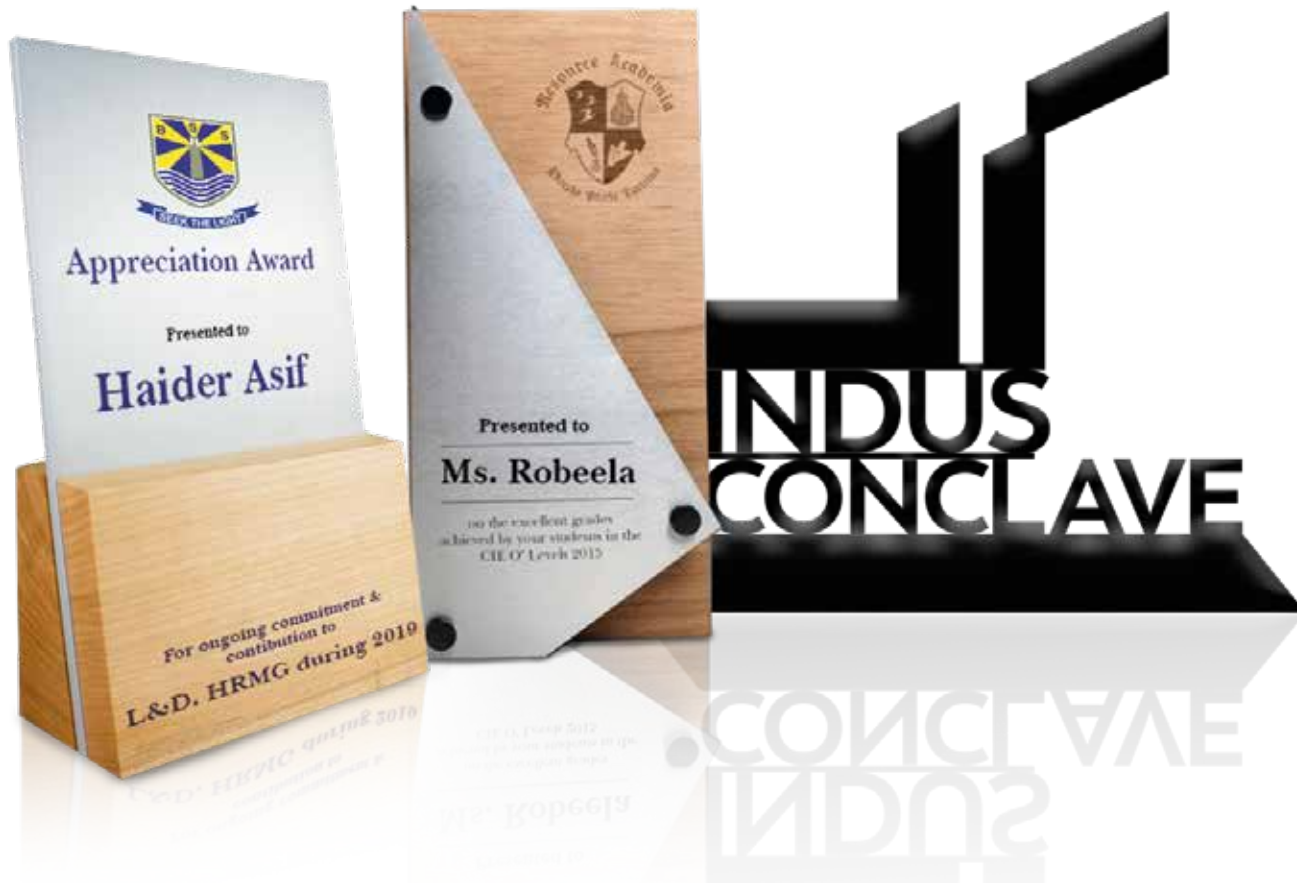

# Branded Clothing

All clothing items are made to order, from polo shirts to cloth bags. Made according to client brand colours and other product specific requirements. You think. We create!

# Shields

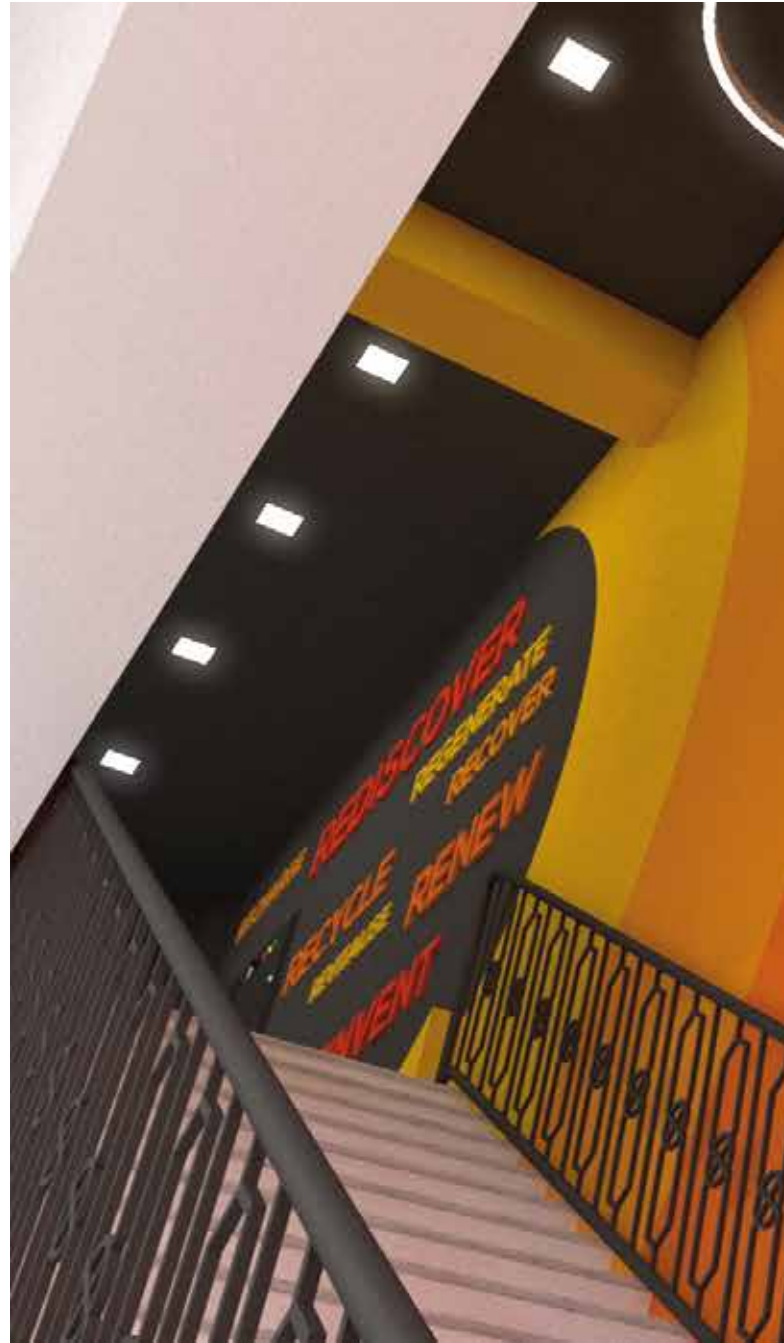

Glass, acrylic, wood, metal, hybrid of a few afore mentioned; you name it, and we'll make it for you.

# OOH Branding & Activations

Whether you need your office space branded or want to install road signs, or want us to help with billboards across the country, we got you covered!
